## LET'S DO SOME RESEARCH

On the 21st of February it is **International Mother Language Day**. We want to find out which languages our Science Spaza Club members speak at home, and during club meetings. We also want to know if our results will match the rest of South Africa?

Look at the pie chart on the right. It shows us what percentage (%) of South Africa's population speak which of our 12 languages.

Help us collect the data by working with your club leader to answer the questionnaire together.

THE % OF THE SOUTH AFRICAN POPULATION THAT SPEAKS EACH OF RSA'S OFFICIAL LANGUAGES
